

| Technical Specifications | |
|-----------------------------------|---|
| Eddy current flaw detector | |
| Bandwidth | 0.5 to 15 MHz |
| Gain | 0 to 80 dB or above |
| Display | LCD |
| Batteries | Standard batteries with Min. 8 Hours backup |
| Supply Voltage | 220 VAC |
| Operating temperature | 0 to 50 ° C |
| Parameters | Subsurface defects detection, location and measurement |
| Testing material | Structures made of alloy steel |
| System Weight | Handy |
| Accessories | Adapter cum battery charger, Protective case, PC interface software and Calibration standards |
| Warranty | 1-year minimum |
| Bandwidth | 0.5 to 15 MHz |
