Skill Development Training Programme on
‘Structural Pest Management’
May 09-13, 2022

Five days training Programme on ‘*Structural Pest Management*’ was conducted for the Pest Management Professionals during May 09-13, 2022 under the aegis of CSIR Integrated Skill Initiative. This training programme was particularly aimed at upgrading the latest knowledge & skills of the working professionals using different tools & techniques in the area of structural pest management covering Termites, Mosquitoes, Cockroaches, Bed bugs, Flies, Rodents, Minor Pests, Weed, Birds & other Vertebrate etc. This programme was attended by 35 participants covering different parts of the country.

This training programme was inaugurated by **Dr. N. Gopalakrishnan**, Director, CSIR-CBRI while addressing to the participants, he said that during construction of buildings, prevention of harmful pest to houses, offices, institutes, working areas etc are very important. Our institute is providing the latest solutions and innovative technologies to the pest management industries for effective pest control. **Dr. B.S. Rawat**, Sr. Principal Scientist and Course Coordinator welcomed the guests, participants and also appraised the five days’ activities of the training programme. Later on **Dr. Ashok Kumar**, Outstanding Scientist while speaking to the participants said that many of us avoid these pests/insects in our houses, offices & surrounding areas but they create very harmful effects on our health and buildings. There are lot of ways and technique available in the market such as physical, chemical, mechanical barriers to overcome from structural pests. During the session, Dr. R. Dharmaraju, Dr. S. R. Karade, Dr. P.C. Thapliyal, Dr. P.K.S. Chauhan and others were also present.

During the technical sessions, participants have been made to understand the latest tools & techniques on different aspects of structural pest management. A total of 13 lectures were presented by CSIR-CBRI scientists and external distinguished field experts. In addition, five sponsored presentations were also made. Sponsoring Industries have also demonstrated their products (latest pesticides, products and machinery etc.) which may be used for the effective pest management. Lastly evaluation exam was also conducted for the participants through objective type questions covering all the technical session conducted during the training programme. Participants have also expressed their views on the training programme and also provided their feedback in writing. The training was concluded with distribution of certificate and relevant materials to the participants.
