Advanced Training Programme on
‘Structural Pest Management’

August 01-06, 2022

Six days advanced training Programme on ‘*Structural Pest Management*’ was conducted during August 01-06, 2022 for the Pest Management Professionals of the country under the aegis of CSIR Integrated Skill Initiative. It was particularly aimed at upgrading the latest knowledge & skills of the working professionals using different tools & techniques in the area of structural pest management covering Termites, Mosquitoes, Cockroaches, Bed bugs, Flies, Rodents, Minor Pests, Weed, Birds & other Vertebrate etc. This programme was attended by 31 participants covering different parts of the country.

Dr. Anjan Ray, Director, CSIR-CBRI inaugurated the training programme; in his address he said that pests damage the structures as well as harmful to human being. He apprised about various diseases and their symptoms caused due to pests like Dengue, Chikungunea, Malaria and Japanese encephalitis, Kala Azar etc. He also informed that our institute is providing the latest solutions and innovative technologies to the pest management industries for effective pest control. Initially, *Dr. Dharmaraju*, Chief Scientist and Course Coordinator welcomed the guests, participants and also briefed about the six days’ activities of the training programme. Later, *Dr. Ashok Kumar*, Outstanding Scientist said that CSIR-CBRI is providing the latest knowledge & skills in the area of pest management & control; which may be very useful to the entire pest management professionals. During the session, *Dr. B.S Rawat*, Sr. Principal Scientist; *Dr. P.C. Thapliyal*, *Dr. P.K.S. Chauhan* and others were also present.

During the technical sessions, participants have been given the technical inputs to understand the latest tools & techniques on different aspects of structural pest management. A total of 30 technical sessions were presented by CSIR-CBRI scientists and external distinguished field experts. In addition, one sponsored presentations were also made by *UPL Ltd.*, Mumbai and demonstrated their products for effective pest control. At the end, written feedback from participants has been obtained and in addition, they expressed the worth of the skill training to their professional career. An evaluation exam was also conducted for the participants through objective type questions covering all the technical session conducted during the training programme. The training was thus concluded with distribution of certificate and course materials.
