

Students Scientist Interaction

(9th May, 2023)

On May 9, 2023, CBRI Scientist Dr. P.K.S Chauhan and Miss Shreya Negi attended AIoT Innovation Fair organized by Army public School Meerut as jury members. Students from grades 7 through 12 took part in the fair and displayed their models. The competition was inaugurated by Mrs. Reeta Gupta, the principal of the school, who also welcomed the jury members. Around 10:00 am, the project demonstration started. We examined all of the models displayed at the exhibition, as well as motivated students and guided them to progress further. The event came to a close around 2:00 p.m.

Subsequently, Dr. P.K.S. Chauhan gave a lecture on Indian Ancient Science wherein he enlightened students on the brilliance of Indian sages and inspired them to explore more about Indian ancient science.
