

Event 7: Student Scientist Connect (Jigyasa) **(11th Jan, 2023)**

A one-day interaction of school students along with the principals and teachers from Kendra Vidyalaya 1 (KVS 1), Kendra Vidyalaya 2 (KVS 2) Jigyasa – School Students and Scientist Interaction program was organized at Rabindranath Tagore Auditorium (RNT) at CSIR-Central Building Research Institute Roorkee on January 11, 2023 with an aim to interact with school students and their principals and teachers to inculcate the scientific thoughts in the students. The interaction was devoted to make scientific linkage of day-to-day life events of students so that they can develop the thinking of scientific approach towards betterment of nation. The event was started with address of Dr. P.K.S. Chauhan. Further Dr. P.K.S. Chauhan invited Dr. Atul Kumar Aggarwal to share his views and motivate the students. After that Dr. Veena presented the role of women in science. Further to this popular science lectures was delivered by the Dr. Rajesh Kumar and Dr. Kishor Kulkarni. Following the event, the students visited the Central Building Research Institute (CBRI) laboratory where they were educated about working mechanism and concepts of the machines present in the laboratory by the CBRI Scientists. At the end of the lecture session, the students of the participating schools were presented with caps featuring the event logo.
