

Event 8: Student Scientist Connect (ATL) **(12th Jan, 2023)**

In connection with OWOL(One Week One Lab) a one-day long interaction of school students along with the principals and teachers from four different schools Atal Tinkering Labs program was organized at Rabindranath Tagore Auditorium (RNT) at CSIR-Central Building Research Institute Roorkee on January 12, 2023 with an aim to interact with school students and their principals and teachers to inculcate the scientific thoughts in the students. The interaction was devoted to make scientific linkage of day-to-day life events of students so that they can develop the thinking of scientific approach towards betterment of nation. The event was inaugurated by the *Prof. R. Pradeep Kumar*, Director CSIR-CBRI. About 200 school students of the different schools along with their principals, teachers were present on 12th January 2023 and ATL team presented three presentations on popular science lectures with women empowerment in scientific field. The program was successfully accomplished with a huge participation & discussion. Program was overall coordinated by Dr. P.K.S. Chauhan, Senior Principal Scientist, CSIR-CBRI.
