Skill Development Training Programme on 'Building Construction Practices'
for the trainee officers of BSF held during Dec 21-22, 2023

CSIR-Central Building Research Institute, Roorkee has organized a two days' skill development training programme on 'Building Construction Practices' during Dec 21-22, 2023 under the aegis of CSIR Integrated Skill Initiative. The training programme was aimed to familiarize the participants on latest knowledge & state of the art practices for innovative building construction practices by covering the topics like Multi-hazards for tough terrains, Repair and Rehabilitation of RC structures, Landslide Risks - Safety & Control measures, Safe and Sustainable Neighborhood, DPR Preparation & E-tendering, Quality Assurance & Control etc. The programme was attended by 08 trainee officers of Border Security Force (BSF).

The training programme was commenced with welcoming the trainee officers of BSF by *Dr. R. Dharmaraju*, Chief Scientist & CBRI Skill Nodal. Subsequently, he emphasized on the R&D activities & training initiatives of CSIR-CBRI and its achievements in serving the society & nation by stating the institute's contributions in building construction for providing appropriate and economical solutions to the problems of building materials, foundations, masonry, roofing, flooring and rehabilitation of structures etc. During the training, 08 technical presentations were made by the CSIR-CBRI scientists namely *Dr. Ajay Chourasia*, *Prof. S.K. Singh, Dr. Anindya Pain, Ar. Anup Kumar* and *Er. I.A. Siddiquie* on different aspects of building construction practices. In addition, BSF officers have also witnessed the Institute's *R&D laboratories, Rural Technology Park and Construction Technology Demonstration Park* etc for better understanding of the construction technologies developed by the institute. Subsequently, participants have also given their feedback and expressed the worth of this training programme. The training programme finally concluded with the distribution of certificates and other relevant training materials.
