**Institutional Visit of Engineering Students from
Phonics Group of Institutions, Roorkee
February 28, 2024**

40 Students of B. Tech (Civil Engineering) from *Phonics Group of Institutions, Roorkee* have visited CSIR-CBRI, Roorkee on February 28, 2024 to acquire the R&D knowledge of the institution. **Dr. R. Dharmaraju**, Chief Scientist have interacted with the students and faculties of the college and briefly explained about the various R&D activities, laboratories & projects etc. of the institute. Subsequently, the students watched a video about CSIR-CBRI's work in detail, which was focused on realizing the nation's dreams in the field of safe and sustainable habitat.

Subsequently, the students were taken to different laboratories within the institute to witness the research activities being carried out on building technologies. They visited labs such as Geotechnical Engineering & Geo-hazards, Structural Engineering, Advanced Concrete, Steel & Composites and Fire Safety Engineering. In each of these labs, the scientist and technical officers explained their research and showcased the latest technologies related to building construction. Apart from this, the students have also attended the technical sessions and function organized for *National Science Day* Event.

Visit to CBRI R&D Laboratories
