**Institutional Visit of Engineering/Architecture Students from
NITTTR Chandigarh & SPA, New Delhi
March 21, 2024**

About 26 Students from *NITTTR Chandigarh* (M. Tech) and *SPA, New Delhi* (B. Arch) have visited CSIR-CBRI, Roorkee on March 21, 2024 to understand the R&D knowledge. **Dr. R. Dharmaraju**, Chief Scientist has interacted with the students and faculties of the college and briefly explained about the various R&D activities, laboratories & projects of the institute. Subsequently, a short film on CSIR-CBRI's was screened to the students through which they could understand the nation's dreams in the field of safe and sustainable habitat.

Subsequently, the students were taken to different laboratories within the institute to witness the research activities being carried out on building technologies. They visited labs such as Geotechnical Engineering & Geo-hazards, Structural Engineering, Advanced Concrete, Steel & Composites and Fire Safety Engineering. In each of these labs, the concerned scientists and technical officers have explained their research and latest technologies related to building constructions.

Visit to CBRI R&D Laboratories
