

Educational Visit for KV students (6th October, 2023)

On the 6th of October 2023, a group of 90 students, accompanied by their teachers from 38 Kendriya Vidyalayas (KVs) across the state visited the CSIR-Central Building Research Institute, Roorkee. The primary objective of the visit was to expose these young minds to cutting-edge research and advancements in the field of building research. The students were organized into three groups and were taken to three different laboratories within the CBRI premises. Which included the Fire Lab, the Building Energy Efficiency Lab, and the Tese- phone. The scientist from CBRI demonstrated the working of various instruments present in the laboratories and delved into the underlying concepts that powered these technologies. the visit was organized by Dr. P.K.S Chauhan, Dr. Chandan Swaroop Meena, Dr. Kishore Kulkarni, Dr. Tabish Alam, and Dr. A. Arvind. The visit provided an opportunity for students to connect with the world of research and innovation. Such initiatives help to sow and nurture the seeds of scientific curiosity among students.
