

Project PI: Nadeem Ahmad

Project Title: Jigyasa 2.0 Programme with the concept of Virtual Lab Integrated (CJVL)

Objectives: To create an interactive platform for Students at high school/preuniversity level with Scientists for igniting their Scientific temperament.
To correctly feed the curiosity of the young generation by inculcating Research systems to understand different Scientific technology.
To provide a good platform for web-based learning.
To expand opportunities for the Students that motivates them to conduct an initiate experiments on their own.
To boost their confidence that can inspire them to become highly competent by improving their fundamental knowledge and practical concepts
