Educational Visit Of

**National Institute of Technical Teachers Training & Research
(NITTR) Chandigarh**

23 April, 2025

An educational visit of **Short Term Course** (STC) participants (from Govt. Officials & Engineers from Himachal Pradesh) along with **NITTR, Chandigarh** faculties on **“Structural Safety Audit of the Building Environment and Earthquake and Landslide Risk Mitigation,”** organized by the Department of Rural Development at NITTR, Chandigarh, to CSIR-Central Building Research Institute (CBRI), Roorkee, on April 23, 2025. The visit was coordinated by Dr. Hemlata, Sr. Scientist and Dr. Tabish Alam, Sr. Scientist at CBRI, Roorkee. Shri Nadeem Ahmad, Chief Scientist and Head of the ODS group at CBRI, Roorkee, welcomed the participants and gave an overview of CBRI, highlighting its various R&D groups and laboratories. He spoke about the institute’s contributions in the field of construction and building research. Following the briefing, participants visited key R&D laboratories, including the 3D-Printing Lab, Advanced Construction Systems and Components (ACSC), and Fire Safety Engineering (FSE). The visit offered valuable insights into cutting-edge research and technologies in earthquake-resistant construction and landslide mitigation.
