

CONCRETE TECHNOLOGY

Sl. No.	Name of Technology
1	Low carbon cement concrete composites using sustainable chemical admixtures.
2	Specific Strength Attributed Self-Compacting Load Bearing Lightweight Roof/Floor Screed Using Sintered Lightweight Aggregates
3	Self-Compacting Aircrete Composite (SAC) Roof/Floor Screed for Thermal Insulation
4	Eco-Friendly Corrosion Inhibitor for RC Structures.
5	Rapid Onsite Concrete Carbonation Depth Assessment Method for Quality Evaluation.
