October 9th, 2025**

As part of the **XIIth Scientific Assembly of the International Association of Hydrological Sciences (IAHS 2025)**, organised by **IIT Roorkee** in coordination with **NIH, CSIR-CBRI, IRI Roorkee**, and **UNESCO** from **5th to 10th October 2025** at the IIT Roorkee campus, a group of **ten students from IIT Roorkee** visited the **CSIR-Central Building Research Institute (CBRI), Roorkee** on **9th October 2025**. During the visit, the students explored various state-of-the-art laboratories and research facilities at CSIR-CBRI. The team was briefed about the institute's ongoing research activities and innovations aimed at building science and sustainable infrastructure development. The visit included tours of the **National Earthquake Engineering Test Facility (NEETF)**, **Fire Research Laboratory**, **Geotechnical Engineering Laboratory**, **3D Printing Technology Laboratory**, and the **Rural Technology Park**. The students were introduced to advanced experimental setups, testing methodologies, and real-time research applications in structural safety, fire resilience, soil-structure interaction, additive manufacturing, and rural development technologies.
